ABOUT ME

I am a React Native Developer with 3+ years of experience building user-friendly mobile applications across various industries. I have developed scalable apps, including a math learning app, kids' games, a classified commerce platform, and a finance registration and appointment booking system. My expertise lies in understanding client requirements, translating them into technical solutions, and crafting intuitive user interfaces. I am committed to delivering high-quality, efficient applications while staying updated with the latest technologies. Whether working independently or as part of a team, I strive for professionalism and excellence in every project I undertake.

EXPERIENCE

July-2025 – Present

Cord4 Solution

React Native Developer

Worked on upgrading a React Native app, resolving bugs, and deploying the updated versions to both Android and iOS platforms. Took full ownership of an ongoing project, independently identifying and fixing issues before successfully publishing the app to the Play Store. Currently enhancing my front-end development skills through hands-on work with Next.js.

May-2023 – July-2025

Techerudite

React Native Developer

Worked as a front-end developer on a UK-based project, analyzing user needs and client requirements. Collaborated with product managers, UX/UI designers, platform leads, and API developers. Implemented Redux for state management, ensuring efficient data flow. Experienced in Middleware, RESTful APIs, and GraphQL integration.

July 2022 - April 2023

Sabhaya Software

Jr. React Native Developer

As a Junior React Native Developer, I gained valuable hands-on experience in mobile app development, particularly in building and deploying applications using React Native. I played a key role in developing and publishing two educational math games aimed at children, which helped enhance user engagement and learning. During my time in this role, I worked closely with a team of developers to ensure the delivery of high-quality code and timely project completion. I am deeply committed to continually expanding my skill set and staying up-to-date with the latest industry trends and technologies to take on new and exciting challenge

PROJECTS

Restricted Inventory

Partnered with Restricted Inventory to resell restricted textbooks, CDs, and DVDs on Amazon FBA; handled sourcing and shipping while company managed prep, packing, and fulfilment, achieving a 50/50 net profit split.
